About Me

I am an adaptable, hard-working graduate seeking an entry-level position in software development, which will utilise the programming and management skills developed through the most renowned computer engineering course available in Portugal.

I am obsessed with old movies, all types of Latino music and traveling.

Dear Hiring Manager,

After being contacted through LinkedIn I have been adverted that you are looking for an educated and enthusiastic employee for your company. At this moment I have completed a Bachelor of Science on computer engineering and feel quite ready and excited to position myself on the free job market.

I am particularly looking forward to working under an international company such as Amaris.

I'm excited about the possibility of working abroad, having previously lived abroad in the UK, I can attest to how formative it was to experience a different culture on a day to day basis, I am particularly thankful for the world of literature that was open to me thanks to my further mastery of the English language. I feel like this and other experiences have solidified me as a person that can work in any type of environment with all sorts of co-workers.

I am interested in consulting as I feel like it would be the perfect head start to my career. I possess a varied set of hard skills, which grants me a greater degree of freedom that I feel would be suited to the consulting business.

Ultimately, I feel like my profile and education are well suited for the job and I would gladly complete the first impressions you have of me in a personal interview

Hoping to hear from you soon,

**José Luís Teixeira Dias, Responsible of GRADUATION ACADEMIC
UNIT of INSTITUTO SUPERIOR TÉCNICO, UNIVERSIDADE DE LISBOA**
CERTIFIES that,

JOAQUIM BROTAS VASCONCELOS ESTEVES -----

with Identity Card Num. 14408830 -----

birth originally from Lisboa -----

and PORTUGUESE nationality -----

concluded the degree in DEGREE (BSC) in INFORMATION SYSTEMS AND
COMPUTER ENGINEERING, on the 06 February 2017, with the final
grade of 13 (thirteen) values having received a total of 180.0
ECTS, has the right to the degree of Graduate in Information
Systems and Computer Engineering, having been issued the registry
diploma number 25240/ISTCL/17.
